# Get to know us!

## Who We Are?

From the humble beginnings as a design engineering office in **2008**, Viet Han Engineering Limited Company (VHE) has flourished, establishing itself as a prominent force in the realm of heavy industrial manufacturing. With expansive workshops and our headquarter situated in the port city: Hai Phong, we take pride in delivering One-stop solution and top-tier products for pivotal projects, particularly in the domains of Power plants, petrochemical refineries, and other intricate industrial facilities.

## A Committed Provider

Product quality and customer satisfaction stand as our foremost priorities. The dedicated team of engineers and specialists at Viet Han Engineering Limited Company is unwavering in their commitment to delivering the most practical values, ensuring that every stringent requirement of our customers is met with excellence.

# Mission, Vision & Core Values

## SPEAKABLE NUMBER

**17+** Years in the industry

**10 000 TONS** Yealy total capacity

**25** Talented In-house Engineers

## Mision

Delivering reliable, high-quality products that meet international standards, we focus on creating value and sharing benefits to foster happiness and prosperit for our customers, company, and partners.

## Vision

To be a top 5 Vietnam provider of Mechanical Equipments, Bypass Stack, Flare System and Piping, One-stop industrial solutions by 2030.

## Core values

- Value Engineering (VE)
- Honesty
- Creativity and Innovation
- Commitment
- Solidarity

# V

### Value Engineering

Product quality and customer satisfaction stand as our foremost priorities.

# H

### Honesty

We believe that transparency build trust and foster healthy relationships.

# E

### Efficient

Our processes focus on efficiency, emphasizing responsiveness for success.

# History in The Making

We have experienced a remarkable journey spanning over years, securing a prominent position in the manufacturing sector. We believe that with ongoing hard work and commitment, VHE is set to embark on an even brighter path ahead.

**09/06/2008**  
Viet Han Engineering Limited Company was established with 6 engineers

**2013**  
Acquired ISO 9001:2008 Certification

**05/01/2012**  
A new office has been established at PG, An Dong.

**2014**  
We have utilized Tekla Structures to meet client needs and stay updated.

**2017**  
Opened new factory and office in Dinh Vu Industrial Zone near International sea port.

**2018**  
VHE achieved certification for ISO 45001:2018 in Occupational Health and Safety Management.

**2019**  
VHE has received certification from the Canadian Welding Technology Organization (CSA Standard W47.1)

**2023**  
Acquired new certificate:  
- ISO 3834-2  
- EN 1090-2 EXC.2

**2024**  
A new workshop has been established, serving as a central hub for cutting raw materials, particularly stainless steel.

**V**HE enjoys a prime location within the dynamic Dinh Vu - Cat Hai economic zone, a hub of innovation with state-of-the-art facilities that align with European standards. Our company is perfectly positioned near key seaports in Hai Phong, granting VHE a distinct advantage in the manufacturing and supply of oversized and heavyweight products. These world-class seaports can accommodate vessels up to 150,000 DWT, ensuring smooth transportation and dramatically reducing delivery times.

### Growing Our Capabilities

Fueled by customer loyalty, we are enhancing our manufacturing capabilities in Hai Phong by establishing several workshops.

### Tailored for Success

While each of VHE's workshops has its own set of unique attributes that cater to specific production needs, they all operate under one strict quality management system.

### Timely and Precise

Our advantageous location and efficient, well-defined procedures ensure we can manage logistics seamlessly, guaranteeing every order arrives exactly when promised.

# Facilities

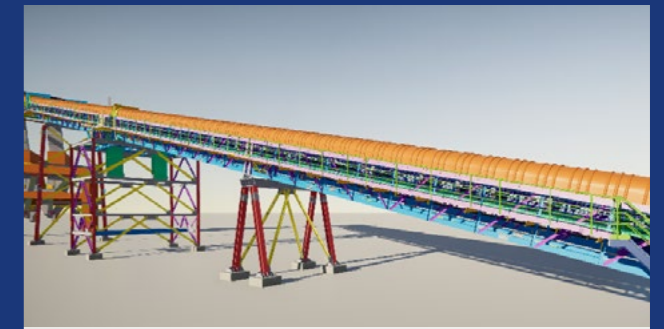

Reach out to the World

# One-stop Solution

At VHE, we carefully map out the process of creating our products, ensuring strict compliance with the specific application guidelines for each project. Our commitment to our customers begins with the initial “hello” and extends through to ongoing support, even after the “goodbye.”

1. Contract & Procurement

2. Design Engineering

3. Material Assurance

4. Fabrication

5. Quality Inspection

6. Logistics & Delivery

7. After-Sales Support

# Design & Engineering

Focusing on its core competencies in design and engineering, VHE is dedicated to producing products that adhere to stringent international standards, including ASME, API, EN, ANSI, JIS, BS, ISO, AWWA, NACE, NFPA, UBC, and AWS, while fully satisfying the needs of customers, owners, and local regulations. With a team of seasoned engineers, we consistently develop the most effective designs, delivering maximum value and benefits to our clients.

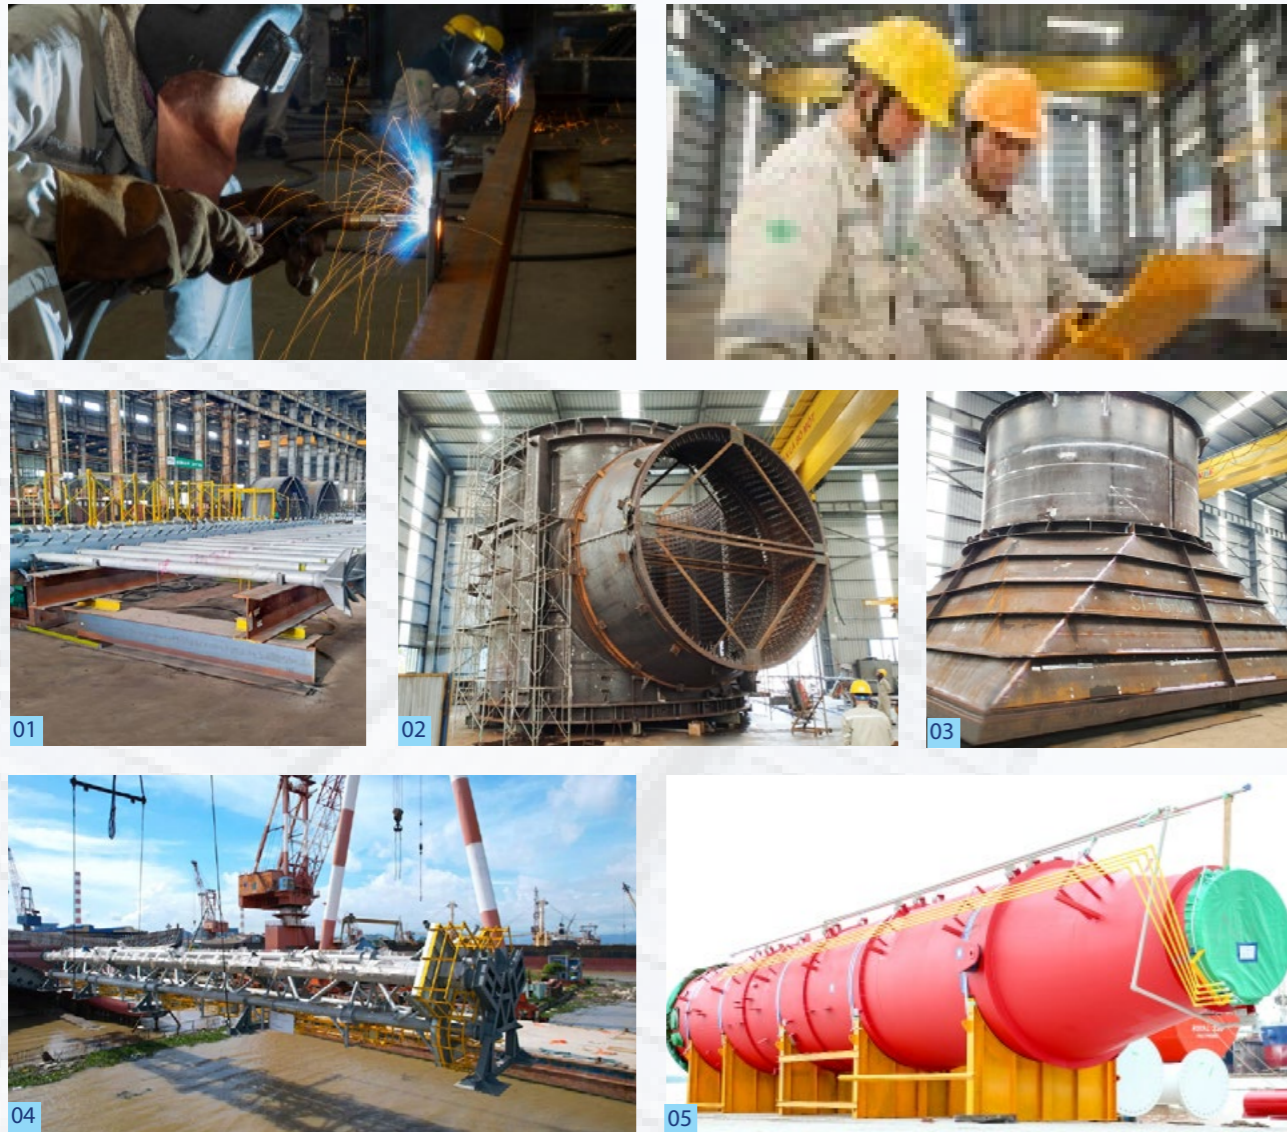

STAAD.Pro

As forward-thinking design engineers, we consistently leverage cutting-edge software to meet every need.

# Construction

Motivated by our dedication to providing a one-stop solution that covers every stage from design to finished construction, we have been steadily expanding our operations at construction sites since 2014.

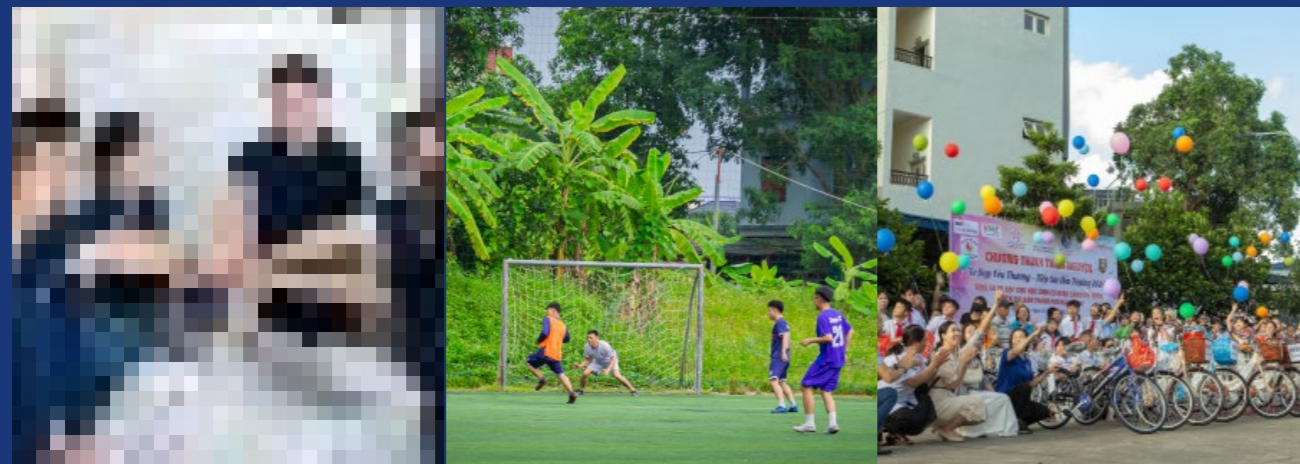

We provide expert technical guidance throughout the erection phase of diverse projects from ball tanks to steel structures for Vietnam's vital industries.

Our support ensures projects are executed to the highest quality standards, efficiently and within budget.

# Our People

“THE FIT PERSON IS CORE TO SUCCESS”

All for one

Work hard play hard

Heart to heart

At VHE, our corporate culture is built upon a foundation of strong collaboration, high team spirit, and a shared passion for the company’s mission, where our team of talented professionals is our most valuable asset.

“ HUMAN IS TREASURE ”

The greatest strength of VHE lies in a passionate and talented team, united by collaboration and dedication. We nurture an environment that inspires growth, enriches well-being, and fuels our commitment to excellence in every project we undertake.
